Notes: Maria lives in this very poor house with her son Jose who is a bad alcoholic, and is unable to work. He is never violent towards her. She had a fall a few years ago, and continues to have problems with her back and Rt. shoulder. Her son Maurico lives with his mother-in-law in Santa Patricia. He provides some support for her, and other people help her also. She appears to be a very sad and lonely woman. She had a very pretty leopard spotted cat. When I asked her if that was her friend she smiled and said the cat sleeps with her.
